

What's Hot And New At Previsite?

'2010 is all about content and listings enhancement' said Sam Sebastian (Google, Inc) at Inman Real Estate Connect in January. At Previsite, we could not agree more... That is why, we now provide the possibility for Brokerage firms, MLS's, Realtor® Associations and Media Portals to have all their Listings (100%) with a Multimedia Presentation for the Web and mobile phones. The use of the Previsite Kit is not anymore mandatory to show Great listings presentation to prospective Home Buyers! We now provide this new service to our client by simply integrating their listing feeds and converting them into Multimedia Presentation! It's totally seamless!

The 2010 Previsite Value Proposition

- 100% Listings in Multimedia Presentation
- 100% Listings converted into video (YouTube)
- 100% Listings displayed on Facebook
- 100% Listings in mobile video format
- 100% Access to Previsite Solution

The New Previsite Viewer

A Video-Like player for 100% of your listings

Now All your listings (100%) can have a Multimedia Presentation without you doing anything. By just receiving your Listings feed we automatically create a Multimedia Presentation. You can still use the Previsite Kit if you desire to enhance those listings with panoramic images, but it's not mandatory.
